

## **Recommendation letter**

It was great to work with Shila. Everybody comes into the house the first word is “wow” then asked who did the work. It is very impressive by the spacious living room which is connected with the open kitchen, and it is wisely separated by a bar design. The kitchen and the living room together looks very big, when I am cooking I am facing a very open view, this is the best kitchen I can have.

My house design is of modern design, but there is a touch of lofty style by having a big metal pole on the roof of living room. It gives a style to the house, and it just looks so harmony. The house is practically designed, there are a lot of built-in cabinet in the house for storage.

The garden is perfect continuances of the living room, it makes the living room looks much bigger even, shila use white and nature colors to decorate the garden, after we put all the flowers inside the garden, it comes out just nice.

Shila also has a very high standard of quality control, detailing until the color of the walls the places of the plug. She came especially to China to choose all the furniture including kitchen, cabinet and furniture. And we have been going to many places just for looking for the right items for the house.

Thank you Shila for doing such a good job, because of your hard working and insistence in doing the details, it comes out just as we planned it. I am looking forward to work with you again in the future definitely.
